## Highlights

### QUALITY

Possibility of **using EVA or PUR glue** thanks to the SGP-E glue pot with manual glue dosing. Simple maintenance with discharge of unused glue from below.

### FLEXIBILITY

Simple and fast automatic settings for machining **2 true radii**, **45° chamfering** and **differentiated finishing** between the top and bottom sides of the panel.

### USER-FRIENDLY

**Large touch control panels** and **Maestro active edge software** offer the operator an efficient and intuitive work experience, as well as providing **connectivity and synchronization** to company systems.
